ALFRESCO

Portable Commercial Umbrella

Extend the use of your outdoor areas, but retain the freedom to re-configure the space with architecturally designed and engineered umbrella.

ALFRESCO

Portable Umbrella

Extend the use of your outdoor areas, but retain the freedom to re-configure the space. The Alfresco Portable umbrella is light and easy to handle, whilst strong enough to withstand wind speeds up to 60kph, making it ideal for everyday commercial use.

- A robust rope and pulley system, ensures the quick and easy operation of the canopy in every size.
- Engineer certified for wind speeds of up 60kph, the Alfresco umbrella will remain stable and pleasant to be under in breezy weather, while giving you ample time to retract and store the umbrella in changing conditions.
- Available in four standard square shaped sizes.
- The Ø49mm umbrella column fits most tables, sockets and bases, seamlessly integrating with existing furniture.
- An architectural grade, PVC Canopy, that is waterproof, heat reflective, and UV resistant, keeps customers, dry, cool and sun-safe.
- The option of a lockable base plate or socket secures the umbrella to site, preventing unauthorised removal, alternatively a concrete base can be used if permanent installation isn't an option.

ALFRESCO

Features

The Alfresco square shaped canopy makes for easy placement of multiple umbrellas in tight spaces, folding compactly away when not in use and fully portable.

Choose from four standard sizes offering coverage up to 12m².

Lightweight and Robust

The Alfrescos lightweight and corrosion resistant aluminum frame is assembled with marine grade 316 stainless steel componentry and powder coated in a colour of your choice, for a smart, easy care, finish. Concealed catenary cables reinforces the canopy seams for superior wind resistance and long-term performance.

Corporate Branding

With our “direct to fabric” print service, professionally promote your brand on your canopy using colour fast inks for accurate colour matching and a premium finish.

Premium PVC Canopy

An architectural grade PVC adds strength and style to the canopy. Purposefully designed for umbrellas, the Alfresco's canopy fabric has been pre-tensioned in manufacture to prevent stretching and tearing after continuous use.

Choose from a multitude of colours that have been tested and rated by their ability to reflect, absorb and transfer heat, ensuring the umbrella is cool and comfortable to be under.

The sophisticated PVC formulation includes UV inhibitors that protect the fabric and the colour pigments from damage and fading, ensuring the longevity of the canopy.

An additional PVDF coating ensures ease of cleaning making it ideal for commercial environments.

A permanent UV surface treatment stabilises the colour pigment in the fabric to resist fading, and provides an Ultraviolet Protection Factor of 50+, blocking harsh UVA and UVB rays.

Simple Installation

With umbrella weights between 10 – 16 kg, the Alfresco portable is easy to move and install.

Choose either an inground socket, base plate, concrete base or a Skyspan Cube base, which allows the umbrella to be repositioned as required.

AUSTRALIAN MADE

- Support Australian Industry
- Products specifically designed to suit Australian conditions.
- Shorter lead times than imported products.

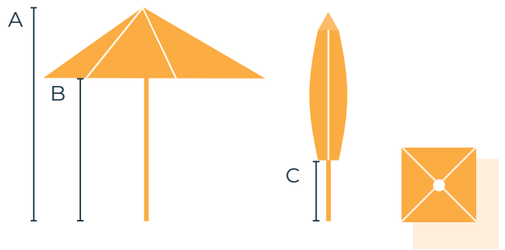
General Specifications

- Shape: Square.
- Canopy Type: Retractable, architectural grade, PVC Canopy, available in a range of colours.
- Installation Method: Above ground base plate or in ground socket. The umbrella can still be removed from the socket and the opening safely concealed with a cover, leaving a flush surface with no tripping hazard. The Alfresco umbrella column will also fit most standard table umbrella holes and umbrella stands and can be used with a Skyspan™ Cube.
- Frame Construction: Ø49mm corrosion resistant structural aluminum column, marine grade 316 stainless steel catenary cables and componentry.
- Frame Finish: Powder coated in your preferred colour from the Skyspan™ colour range.
- Engineer Wind Rated: up to 60kph open.

A full range of spare parts are available for the long-term care of your umbrella.



Canopy Type	Dimensions	Umbrella Height			Packaged Weight
	L x W Approx	A	B	C	Kg Approx
Square 1.9	1900 x 1900mm	3250mm	2250mm	1700mm	10
Square 2.4	2380 x 2380mm	3250mm	2250mm	1400mm	12
